NOTICE

COVID-19 Business Emergency Rebate

ECHO Energy special announcement

Echo Energy understands the important role businesses play within our community. We also acknowledge there are significant challenges each of our local businesses are facing at the moment. We would like to help.

To that end, Echo Energy will be offering a special three month (March-May 2020) discount to our existing business customers to help ease the burden of the COVID-19 pandemic. This rebate will be the equivalent of any profits that were to be realized from our business account holders for the duration of that period.

Echo Energy believes in people before profits and we hope this gesture helps your business to navigate some of the issues you are currently experiencing.

Thank you for believing in us. We've got your back.
